Renew/Update License in iX1 Software

Introduction:

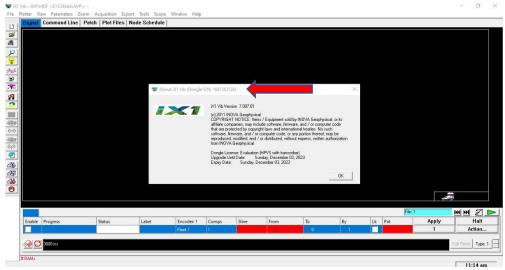

INOVA software require Licenses to run. Users need to provide System ID (Virtual or Physical) to the INOVA Personnel to obtain License.

Steps to do:

1. Run the iX1 software and click on Help – About iX1

Uigital Command Line Patch	quisition Export Tools Scope Plot Files Node Schedule		Hot Keys	1								
			About iX1 Vib.	. 🔽	·							
					V							
											iller,	
										File: 1	HI F	17

Enable Progress S	itatus Label	Encoder: 1										Halt
Enable Progress S	tatus Label	Encoder: 1 Fleet 1	1		.9	0	1			1		Halt Action.
	tatus Label		1		0	0	1					Action.
Enable Progress S	tatus Label		1		0	0	1				E dit File	Action.

2. Note down the System ID displayed

3. Browse to the INOVA_iX1 folder in Acquisition drive. (E drive most of the time) and Run INOVAKeyUpdate application.

4. System ID noted and displayed ID must match in case of Physical Dongle ID (In case of virtual ID you need to make sure that window is kept open until you get the license file from INOVA update the software)

System Id:	1644946285			
Please contact INO Tel: 1.403.537.216	VA Corp. 0)			
ок (Verify	Exit		

5. After receiving License file (.lic) from INOVA, download it and access the location it by clicking "Verify".

6. Browse the file and click Open.
